

Mandarin Chinese Mother tongue Programme for native Mandarin Chinese speakers is expected to begin January 2015.

Mandarin Chinese speaking children will develop their vocabulary of Chinese words, Chinese characters, sentences and conversation in a relaxed and happy atmosphere. Our teaching will rely heavily on oral Chinese instruction and interaction while using games, handwork and music to help young students grasp the language while having fun. In this way, students gain valuable communication skills and practice within a proper Chinese classroom.

Our Mandarin teachers are fully qualified and experienced, having taught either in China or abroad. We have also established solid partnership with the Capital Normal University (CNU), Beijing, China, www.cnu.edu.cn, which has enabled us to gain more access to accredited and professional teacher training to enhance our teaching - your young children are in capable hands.

Interested parents please contact Ms. Lucy: lucychuang@dubaiclc.com or tel: 055 6607168. For more information, please refer to our website: www.dubaiclc.com
