3D EDUCATION
DIRECTION - DETERMINES - DESTINATION

An ultimate 6 days training program specially designed for students to pursue career in Aerospace and Aviation Technology and to promote their interest in the study of Mathematics, Science, research and related field.

Space Camp® is the ultimate unique camp experience where children work as a team and confront mission scenarios that require dynamic problem solving and critical thinking skills. Throughout the week, camp trainees encounter artifacts as they learn about space hardware and the history and future of space exploration.

Training Highlights

- Communication
- Leadership skills
- Teamwork
- Organization
